

Emergency Medical Services/Basic (CD)

Certificate of Development · Program Code: 152 · Credit Hours: 16 · Contact Hours: 19-22

Vice President: **Pete Olson** Program Coordinator: **James Cousino**

This program is designed as an introduction to Emergency Medical Services using either [EMS 105](#) (Medical First Responder) or [EMS 110](#) (EMT Basic) as the point of entry. Students with no prior healthcare or EMS background should consider taking [EMS 105](#) and then [EMS 110](#); students with some healthcare experience should consider starting the certificate of development with [EMS 110](#) and then completing both [ENG 111](#) and [MATH 110](#) (or any higher MATH course). This EMT basic course of study (or the equivalent) is needed to go on to the Associate's degree (Program Code 253) or Certificate program (Program Code 153).

The US Department of Education requires colleges to disclose specific information about certain certificate programs. The information falls under the umbrella term "Gainful Employment" and includes, but is not limited to, graduation rates of students enrolled in the program and the median debt of students who have completed the program. Click here to view "Gainful Employment" information for this program.
