Executive Directive # 13-01232009-01
To Promote Health and Safety in Tribal Facilities

This Executive Directive repeals and replaces Executive Directive # 12-11262008-01. The Waganakising Odawak Constitution, Article VIII, Section C, Subsection 1, states in part that “The Chairperson shall have the following powers and duties: 2. To oversee all Tribal Executive Departments, boards, commissions, and committees created by the Tribal Council..”

Creating a safe and healthy environment, including food service operations, in Tribal facilities for staff, Tribal citizens, and guests is an essential component of this executive oversight.

Pursuant to the Constitutional provision, the Executive hereby directs the Safety Coordinator and all staff whose duties encompass the responsibility for and monitoring of Tribal facilities and food programs, to utilize the most recent regulations of the US Department of Labor, Occupational Safety and Health Administration and the most recent regulations of the U.S. Food and Drug Administration’s (FDA) Food Code, as a guide in carrying out their duties, until the Tribe enacts a comprehensive set of laws and regulations with regard to occupational health and safety and food safety.

This Executive Directive becomes effective January, 23, 2009 and will remain in effect until rescinded by a subsequent Executive Directive.

Frank Ettawageshik, Tribal Chairman
